

# CITY 4

## A VISUAL DAY IN THE MOLEHOLE

### WHAT IS OUR PODCAST ABOUT?

- You will be taken through the daily life of a girl who lives on Mars!
- The year is 2107 & the first colony on Mars is already well established.

### PHYSICAL ASPECTS

#### Energy:

1. Nuclear batteries
2. Solar & nuclear energy
3. Geothermal energy (?)

#### Water:

- From polar caps & subsurface lakes
- Recycled

#### Built environment:

- Green areas
- Active transportation

### MENTAL & PHYSICAL WELLBEING

- Digital activities due to resource scarcity: Ebooks, digital fashion...
- Spirituality as important factor for social cohesion and individual wellbeing
- Personalised care and medicine at the centre of healthcare

### GOVERNMENT & EDUCATION

#### Government:

- Relationship with Earth weakens
- Representatives from every neighborhood
- Decisions are made by the community

#### Education:

- Supports collaboration
  - Larger class sizes
  - Different "pods" to work together or where you can eat

### SOCIAL COHESION

- Everyone is completely integrated in the society or has the opportunity to do so if they want to
- Everyone is comfortable with their place in society
- Equality is an important feeling in this city and it is a shared feeling
